***Our new TRIAL programme running throughout the 2021-22 Session**

The goal of the Emotion Works Literacy Programme is to support schools to focus on improving both Literacy and Wellbeing outcomes at the same time since these are 2 vitally important aspects of education to get right during the Covid Recovery period. To keep costs down all training and teaching material is provided online, with digital resources to download and print off for reference and classroom use. The #EWLiteracy teaching programme provides practice ideas for emotional wellbeing that will also help boost pupil vocabulary and develop talking, listening, reading and writing skills.
